Nutech Paint
Limited Warranty Bulletin
Nutech Roof Coating Systems

US Export Product Limited Life Time Warranty

Subject to the conditions below Nutech Paint LLC warrants that NXT Silicone Coating will be free of defects for the life time of the roofing system and satisfies the published physical properties at the time of manufacture. Application must be in strict adherence with Nutech Paint surface preparation, application instructions, and recommended maintenance procedures. The substrate must be completely structurally sound and have a good life expectancy prior to being coated with NXT Silicone Coating. Nutech Paint has no control over the variables involved during application of NXT Silicone Coating, therefore Nutech Paint cannot guarantee results of the application including, but not limited to: finished coating appearance, watertight capabilities of the roof, and the suitability of the substrate.

WARRANTY SPECIFICALLY EXCLUDES ALL LABOR &/OR COSTS OF LABOR, AND ALL INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY KIND.

This warranty excludes the abuse of installed roof coating in any way, including but not limited to: pedestrian traffic physical abuse, substrate failure, animal life, vandalism and all natural disasters. This warranty is void if NXT Silicone Coating is painted, patched, physically damaged or partially removed or covered over in any way with any product other than NXT Silicone Coating. This warranty is limited to the NXT Silicone Coating only if NXT Silicone Coating does not meet the warranted standard, Nutech Paint will replace the NXT Silicone Coating at no cost to the purchaser. Proof of purchase required with original receipt. This limited warranty is not transferable to successive property owners without prior acceptance and approval in writing from Nutech Paint. Nutech Paint offers no other express or implied warranties. The sole liability of Nutech Paint is limited to replacement of any NXT Silicone Coating shown to be otherwise than as warranted for the reasonable lifetime of the roofing system and subject to the following conditions: The system as installed must comply with a standard Nutech Paint Application Specification available on request; The warranty does not extend to labor costs for inspection, testing or repair of the NXT Silicone Coating system or any other labor costs; Any notice of claimed defect in materials shall be sent in writing to Nutech Paint at the address below including a statement of scope of defect and evidence suggesting liability by Nutech Paint.

This warranty is conditional on the maintenance procedure of the roof being re-coated with Nutech NXT Silicone Coating before an anniversary of each successive 10 year period from the date of the original application. A record of the application date including a photograph of the roof must be supplied to Nutech within three (3) months of the original application date and also within three (3) months of each successive re-application. All re-application of NXT Silicone must be in strict adherence with Nutech Paint surface preparation and application instructions. Failure to supply Nutech with this information will void the Limited Lifetime Warranty. Major structural alterations, repairs or modifications to the roof structure or the building that may impact on the function of the roof structure and the protective coating may also void this Limited Lifetime Warranty at the discretion of Nutech Paint LLC.

This warranty gives you specific legal rights, you may have other rights, which vary from state to state. Some states do not allow exclusion of incidental or consequential damages, so limitations or exclusions contained above may or may not apply.

Manufacturer's Warranty

The Nutech Manufacturer's Warranty covers Peeling, Cracking, Cracking and premature Color and Gloss loss subjected to above warranty conditions. Subject to correct surface preparation, product selection and application, Nutech NXT Silicone is guaranteed 100% waterproof in exterior applications. NXT Silicone is warranted to prevent liquid water ingress to the substrate, this design functionality eliminates the possibility of adhesion problems developing, which is common problem with inferior paint and coatings.
